REDINGTON & CO.'S COLUMN.

REDINGTON & CO.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

REDINGTON & CO.,
SOLE AGENTS for the PACIFIC COAST.

STOP THAT COUGHING!

SOME OF YOU CAN'T, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to supercede all similar preparations It is not surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Ashma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefitted by the surprising curative powers of

Newell's Pulmonary Syrup

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup

has cured thousands and it will cure YOU if you try it.

This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

GRAEFENBERG
UTERINE CATHOLICON.

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Cathalicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating and Dropsical Swellings, and all diseases of pregnancy. The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

REASONS WHY THE
AMERICAN WATCH,
Made at Waltham, Mass.
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery, (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. Now machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between the grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction, for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturna Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc

MURDER IN CHICAGO—A GAMBLER KILLED.

The murder of George Trussel, a well-known and popular sporting man of Chicago, and the owner of the famous trotting horse Dexter, by his beautiful and neglected mistress, more than divided honors with the President's presence as occasion of local excitement in that city. The whole story, romantic, tragic, impressive and alarming in its exhibition of our social evils, is thus told in a Chicago dispatch:

Trussel was born in Danville, Vt., where he lived until 1848. He then came to Kenosha, where he was employed in a grocery store. In 1860 he came to Chicago and was employed by a prominent business firm—Richmond & Co. He possessed unusual business qualifications and gained a high character for integrity and wide acquaintance in the city. He shortly after commenced gambling, and soon became proprietor of one of the largest faro banks in the city, and in his profession had amassed a fortune of over $100,000.

Early in his career he met a young and beautiful chambermaid at the American House, Cleveland, with whom he cohabited until two years ago, when a difficulty occurred, which ended in an open rupture between them. A street altercation ensued, in which the girl was roughly handled by Trussel. A separation took place, of course; but on several occasions since a short reconciliation had been effected, with no lasting results, however.

Trussel was the owner of the greater portion of Dexter, and, accompanied by the girl, Mollie Trussel, he attended the races in the East, where his valuable animal has been exhibiting his prowess. While at Buffalo his paramour became jealous of him, and another quarrel was the consequence, which has been growing wider and more malignant, until last evening, rage, jealousy and strong drink caused the woman to do an act which to-day she would give her own existence to recall. The mistress, who has been keeping an aristocratic and most luxuriously-furnished house of ill-fame in this city, while in a fit of partial intoxication, arrayed herself in her most gorgeous finery, armed herself with a revolver, and set out last evening in search of Trussel. She searched for him in all the various places he was in the habit of frequenting, and finally, at 11 o'clock, found him in a saloon attached to Price's livery stable on Randolph street. Trussel was standing with some of his friends in the saloon, when she entered by a side door opening into the stable. Approaching him she took him by the coat collar, saying, "George, I want to see you." He stepped towards her, as if to accompany her, and finally pushed her out of the door. He followed her out, and, it is said, struck her two or three times, whereupon she instantly fired. The shot evidently took effect, for Trussel immediately pressed his hand to his side and retreated to the center of the saloon. Mollie pursued him and fired a second shot, placing the muzzle of the pistol close to his back. He cried out, "I am shot," and staggered to the side entrance leading from the saloon to the main entrance of Price's livery stable. The woman still followed him and fired again, hitting him somewhere on the side. He staggered half-way across the stable entrance and fell dead on the spot. Either of the shots striking him would have alone produced death. The whole affair was so sudden and fearful that of all the bystanders no one had the quickness of thought or limb sufficient to stop the infuriated woman from committing the bloody work. Mollie pushed out, and, with a frantic scream, threw herself upon the prostrate form, crying out, "Oh, my George! My George! He is dead!" While she was indulging in bitter lamentations of a maudlin character, officers come to the spot and took her to the central police station. At the station house the ravings of the murderess were piteous to listen to. It was impossible to obtain any of the motives which induced her to perpetrate the crime. This was partly, perhaps, the result of her intoxicated condition, and the horror awakened in her mind by the knowledge of her guilt. "Oh, my God!" she exclaimed, "he is dead; he is dead! I know it, for I saw him laid out! My dear George; he is dead! Oh, how I wish I was dead with him. I know I cannot live now, and I don't want to; but I cannot go to heaven. I know I have been wild, and now I will never have any more peace."

In this way she continued her wild lamentations, refusing to listen to anything that was said to her. Suddenly, speaking of her child, she broke out with the passionate exclamation, "I have a son, a little boy, at school. Oh, my God, do not let him know what his mother was. He will never, never on earth know that. Tell Captain Nelson," she said, turning to Captain Douglas, who sat beside her, "to sell my property at auction after I am dead, and give the money to my boy." Among other things, she gave vent to expressions of regret that the bystanders did not interfere. "I was mad," she said, "and they ought to have known it. They should have knocked me down. Oh, my George; if I could only have died with you!" With such expressions she continued to rave and sob during the whole night.

The affair has created the most profound excitement all over the city, as Trussel was almost universally known here, and, apart from his gambling propensities, was looked upon as an honorable man. The murderess is one of the most beautiful women in the city. Tall, well formed, black hair and eyes, and especially known as the best dressed woman in Chicago. It was undoubtedly jealousy on her part that led to the terrible deed.

The day after this tragedy, Trussel's horse "Dexter" bore his part successfully in a great trotting match at Chicago, beating "Patchen" in three single mile heats, and winning a purse of $4,000. His time was 2:30¼, 2:24½ and 2:28.

NATURAL SUN PICTURE.—The Sierra *Advocate*, of October 6th, says:

"One day last week we were shown by J. H. Hickox, Esq., a piece of rock taken from his claims on Charcoal Flat, which presented a strange though beautiful scene. On one side, which was as smooth as polished marble, appeared in miniature, a vast forest, with all its various pines and dense undergrowth, while in the back ground was a lake, colored as though the last rays of a setting sun had thrown over it a golden tinge. By placing the stone at a distance of three or four feet from the eye, the picture there drawn by nature, in one of her strange moods, was life-like in every detail. Many theories have been advanced as to the cause of this strange phenomenon, but the most popular is that at some day in the distant past, lightning left on the stone the reflection of forest and lake."

BEES BREAK UP A FUNERAL.—A singular and most distressing scense took place on the 6th, in a graveyard at Edwardsville, Illinois, where during the funeral ceremonies over the body of a child of Mr. John Gaffney, the mourners and attendants were attacked by a swarm of bumble-bees. The irate insects lit upon the uncovered heads and faces of those present, who were mostly all stung in a terrible manner. The ladies screamed, and a retreat was absolutely necessary before the ceremony was concluded. One of the ladies stung is confined to her bed from the effects of the virus.

RETRIBUTION.

On the 2d of November, 18—, I quitted Liverpool for Boston in the Royal Mail Steamship Caledonia. As I stood on the wharf ready to embark, I saw a man, whose face was not unknown to me, moving to and fro with an uneasy air, asking to speak to the Captain of the ship.

A person at this moment called me by name. M. X—— shook me affectionately by the hand, and asked me what I was going to America for.

I replied, "To see the country and give concerts."

"I lay you cannot guess the object of my voyage. I am going to New Orleans. I am in love."

"In love! That is something serious."

"Yes, I am in love with a woman I met at a ball given at the Hotel de Ville. I never saw anything like her—beautiful, tall, fascinating eyes and something superb in all her motions, which fires the senses, while at the same time it inspires respect. In fine, she is a marvel."

"Of course this marvel is an unmarried lady."

"No, she is married, and lives with her husband at New Orleans."

"But then—if she is married?"

"O, that's no matter."

"What! that no obstacle?"

"I reckon upon transferring her husband to a lunatic asylum as a madman. As soon as his insanity is proved by a decree of Court, his wife will sue out a divorce. Then I shall marry her. To be prepared for this happy event I have filled a portion of my trunks with presents for my future wife.

"Really, that is an excellent idea, and it proves you possess a most fruitful imagination."

"Love makes men ingenious. And I do so adore her, she is so beautiful! Come down into the cabin and let me read you some of the letters she has written me. You will see how elegant and impassioned is her style. 'Tis Heloise born a Creole, that is indolence allied with the most exalted sentiment."

"You are a very happy man."

"Indeed, I am a very happy man."

I wished to remain on deck, having great need of breathing fresh air; but M. X—— insisted so much and so earnestly I was obliged to yield. When M. X—— saw there were several beds in his cabin he became furious.

He said: "This is horrible. I have been swindled. What! I have paid four hundred and eighty dollars, and I shall not be alone in my cabin! And pray who is going to sleep with me?"

The butler replied: "An Englishman, sir."

"An Englishman! And why do you stick an Englishman with me? Is it because I cannot speak English? No, I have never slept with an Englishman. and I never will sleep with an Englishman."

The captain was summoned. When M. X—— was convinced he could not have a cabin entirely to himself, he begged me to take the Englishman's place. The latter consented to this change of cabin. I became M. X——'s shipmate. He made me read two or three letters of his beautiful Creole every day. He had at least forty of them.

I had been some months in America, when, after landing in New Orleans, I met M. X——. He said to me:

"Well, it was perfectly successful!"

"It? What?"

"Why, my scheme. I had the husband sent to an insane asylum; the divorce was decreed, and I married his wife."

M. X—— spoke with perfect seriousness. I was full of horror to think of so monstrous an act. I said to him:

"You have resorted to abominable means to satisfy your love. Have you no remorse?"

"No; I have no remorse. I have some regret at having succeeded so well. If it was not much more difficult to get a sane man out of a mad-house than to send him there, to declare a divorce null than to dissolve a marriage, and if it was not impossible to persuade an unmarried husband to remarry his old wife, long, long ago the poor husband would have assumed his original position and I mine,"

"Has not your marriage proved a happy one?

"Alas! I have discovered too late that happiness is not to be found in this world, either in the new or old world."

The fascinating Creole, who had, with so much alacrity, taken measures to get her first husband adjudged a lunatic, made her second husband so unhappy by her whims and caprices that M. X—— became really crazy. He was carried to an insane asylum upon good ground of reason, and he soon died there in a state of complete prostration.

As for the first husband, the pseudo-lunatic, he laughed heartily when he heard the tragic end of his successor to the favors of his tender half. He obtained his liberty, and cheerfully confessed that he had feigned lunacy because he was afraid he would become so if he did not get rid of his wife.

The greater lunatic of the two was not he who passed for the madman.—Henri Herz, the Pianist.

MORE INDIAN OUTRAGES.—The Shasta *Courier* of Sept 29th says, last Sunday a party of Indians robbed a couple of cabins on the North Fork of Cottonwood, and killed some domesticated Indians who were encamped in Mr. Post's field. A few days previously a man named McKearns was killed on the Hay Fork of Trinity by the same party. Mr. Post raised a company of ten men and followed the savages to a point on Cottonwood, near its junction with the Sacramento river, where he met another company of seventeen men from Hay Fork, who were in pursuit of the same marauders. The two companies will probably join forces and continue in pursuit of the Indians until they are overtaken. The party committing these depredations are said to be Cow Creek Indians lately escaped from Nome Cult Reservations.

H. W. BEECHER sent this dispatch to his people when the Southern Union men were to be at his church:

"I regret that health will not allow me to pay my grateful respects to those heroic Southern men who stood faithful among the faithless in the bloody trial. God bless them. Their country honors them. History will perpetuate their names among the noble. With all my heart I welcome them to Plymouth Church, and give them the right hand of fellowship."

An old negro woman who was emancipated in 1859, went at once to Colorado Territory, where she has been working hard and living ever since, and has accumulated a fortune.—Last Fall she returned to Tennessee, and devoted the Winter in searching out and collecting together her children and grandchildren. She has now taken them all back to Colorado with her, at her own expense, and proposes to keep the family together hereafter.

INDIAN FIGHT.—A fight occurred with Mojave Apache Indians, lately, at Skull Valley, Arizona, in which one white man and twenty three Indians were killed. Eleven white men and one hundred and fifty Indians were engaged in the fight.—*Los Angeles News.*

PROBABLE RELEASE OF JEFF. DAVIS.

A Herald's Washington special, dated Sept. 14th, says:

"In a private dispatch stated there was good reason to believe that a few days Jeff. Davis would be released on parole or bail. I received my information from a high official who possesses excellent facilities for learning the President's views and intentions on such subjects. The announcement created quite a flutter among politicians, and several very influential ones, favorable to the President's restoration policy, ventured to call on him to ascertain if the announcement was well founded.

They urged the President to defer any action in the matter until after the Fall elections, reminding him that he was already accused of sympathizing with rebels and abusing the pardoning power, and assuring him that the release of the head rebel at this time would be handled by the Radicals in the present campaign with powerful effect, and greatly impair the chances of the party now laboring to elect men to office who would support this, the President's policy. This I have on undoubted authority. The President replied that many distinguished and loyal gentlemen from both the North and South, had appealed to him for the release of Davis, and presented several considerations which made a favorable impression on his mind why Davis should not be held longer in confinement.

He said to them, if from any fault of the Court to proper officers of the Government, Davis should not be brought to trial in October, he should not from any reason then known to him, deem it his duty to hold the prisoner for another term. In [illegible] the friends of Davis this assurance he had not anticipated the action of the Court, and had not appointed any time for Davis' release in the event of his not being tried.

He declared that he had from the first desired to have Davis tried for treason, and had used influence and authority as he possessed to have the trial take place at an early day, but that if there should be further delay in bringing on the trial, he believed that neither the interests of the country nor his duty demanded that he keep the prisoner longer in custody.

He also stated that he was unable to perceive, that the release of Davis, on parole or bail, would furnish the Radicals with a valuable weapon, but that unnecessary delay in bringing him to trial, would approve of his being conditionally released. It is well understood in the best informed circles that Davis will not be tried at October term, so that release may be looked for soon after but not till after that time.

On dit that Mr. Creed one of Davis' counsel, had been authorized by the Attorney General to say his client that the Government would direct his immediate release on condition of his leaving the country never to return, and that Davis indignantly rejected the offer."

LORD GROSVENOR, the eldest son of the Marquis of Westminster, whose fortune is enormous and said to produce the immense income of £450,000 per annum. He is highly intelligent, and the variety and depth of his information would be considered great even for a commoner. He has traveled extensively in all parts of the world, and it is not long since he returned from an extensive tour in the United States. While at the West he was one day waitnig at a country station for a tardy train when one of the farmers of the neighborhood entered into conversation with him.

"Bin about these parts consid'able stranger?"

"Yes, for some length of time." "Like 'em putty well 'eh?" "Yes, pretty well." "How long yer bin here?" "A few weeks." "What's yer bizness?" "I have no business?" "What yer travlin' for then?" "Only for my own pleasure." "Don't yer do any bizness?" "No." "How do yer git yer livin' then?" "It is n't necessary for me to work for my support. My father is a man of property, and gives me an allowance sufficient for my wants." "But s'pose the old man should die?" "In that case I dare say he'd leave me enough to live upon.' "But s'pose he should bust up?" Here the conversation ended, and Lord Grosvenor walked away, evidently stuck by a new idea.

WHO THOMAS DONAHUE WAS KILLED.—The *Alta* says:

"Thomas Donahue has been the subject of various paragraphs, the past few days, as a fugitive of justice charged with killing a man named Patterson, in Oregon. A correspondent asks who the man was Donahue shot, and on inquiry we learn that Patterson was a noted desperado and gambler, and the man who shot and killed Captain Staples, commander of the Brother Johnathan, at Portland, some years since, and and also murdered a man named Pinkham, in Idaho. He had committed some unlawful act, and the officers of law were set at bay by Patterson in their efforts to arrest him, having taken refuge in the upper floor of a building and standing at the head of a flight of stairs, threatened to kill any man who should approach. Captain Staples, who knew no fear, acting with officers, started up the stairs to secure him, when Patterson fired and killed Captain Staples on the spot. At a subsequent time he is reported to have willfully scalped a frail woman in Portland, cutting off a piece of skin and flesh from her head, taking the hair with him. From Portland he retreated to Walla Walla, where he was the boon companion of characters like himself. It was at the latter place where he and Donahue met, and where he was killed."

A FAST COMPOSITOR.—In the office of a Wisconsin journal there is a compositor who sets type so rapidly that the friction of his movements fuses the leaden emblems in his stick, making them solid, like a stereotype plate. The only way to prevent this is to have his case submerged in water, and the rapidity of his movements keeps the water boiling and bubbling so that eggs have frequently boiled in the space box.—Pipes lead from the bottom of his case to a boiler in the press-room, and the steam generated by the fast compositor runs the power press. In one day he set so much type that it took all hands, from editor to devil, two weeks to read the proof, and it wasn't his goods day for type setting either.

It is a subject of remark in London that the Jewish inhabitants of the East end have escaped unscathed during the prevalence of cholera in that quarter. Only three or four cases of cholera have taken place, and the cases of diarrhœa have hardly exceeded those of an ordinary summer. A similar exception was observed in 1849, when the Jewish community only lost about 1 in 2,000 as compared with 6 in 1,000 of the general population of the infected districts. Then as now, the immunity was ascribed to certain observances and habits inculcated by the Jewish faith.

SHOOTING AFFRAY.—We are informed says the Petaluma *Argus*, that a shooting affray took place near Denton's Store, Tomales, on Sunday, 23rd ult., resulting in a person named Lamphair, shooting a man named Lynch. Lynch was shot twice, once through the body and once through the wrist. His wounds were supposed to be fatal. The difficulty was about a horse. Lamphair escaped, and had not been arrested at last accounts.

WHAT WE SAW AND NOTED—No. 2.

After exhausting the resources of Rocklin and taxing sufficiently the hospitality of our friend Perkins, we took a cast-off Chinese carpet-sack in our hand, to give us character, and peregrinated per railroad to

AUBURN,

"loveliest village of the gulch." Say what you will, Auburn is a tidy, comfortable little town and, somehow or other, we never fail to realize one of Topsy's sensations, and feel "kind o' missuable" when we leave it. We may be prejudiced, but even the "Court-house clique" is a pleasant set of fellows for us to associate with. No one hitherto familiar with Auburn can, on entering it at the present time, fail to have his attention immediately attracted to the two neat and notable improvements—the tasteful and commodious new school-house, and the magnificent reservoirs recently constructed for security against fire. The school-house is beautifully located on the knoll adjoining Judge Hale's residence, formerly occupied by Captain Grant. The building will be the neatest of the kind in the county when completed, and would be creditable to a town of far more pretension than Auburn. Capt. A. Racliff is the contractor and is doing his work in a thorough manner. We found the Auburnites considerably infected with the quartz fever, and saw many specimens of rock from various ledges in the vicinity which were well calculated to justify the excitement. We do not for a moment doubt the existence of splendid ledges in that neighborhood, and feel confident that a day of brilliant mining prosperity will dawn on the dear old place whenever its people learn to depend on *themselves* instead of waiting for "*Eastern capital*" to develope their mineral resources. In connection with the mining interests of Auburn, Professor Gibb has opened an assay office, laboratory, etc., in the old Bank Exchange building. Here he keeps a complete assortment of the most powerful acids, mixed and prepared according to a formula peculiarly his own, which will eat up all sulphurets or other base matter in a little less than no time. He has a fine assortment of "crushers," "retorts" and "amalgamators," and gives reliable assays of all ores taken to his works with instant dispatch.

THE RESERVOIRS OR TANKS.

These splendid structures, to which we adverted in the beginning of this article, are to Auburnites what the "Great Organ" is to Bostonians—they are the pride and boast of the town, and well they may be. J. C. Boggs, Esq., Civil Engineer, exhausted the resources of his art in planning and constructing them. From a casual and superficial view, we should suppose that these immense reservoirs, basins or, as they might be not inappropriately styled, artificial upland lakes, have an actual capacity of from *seventy to seventy-five gallons each!* We are confident that if they were once completely filled—*level full*—they would absolutely retain their contents, *without further supply*, for the full period that it would require a fleet racer to make the circuit of center block, in other words, an aggregate distance of, say, *three hundred and twenty feet!* The inestimable value of these public improvements at the county seat was happily demonstrated at the late fire at the residence of Mr. James Walsh. It is currently reported and believed in Auburn that on that occasion a force of only six men was able, with comparatively slight exertion, to pour water into the upper or great Eastern reservoir fast enough to keep one man amply supplied with aqueous fluid to quench the flames. All and undivided honor to Boggs, the Architect, say we. In our next, Colfax, Grass Valley, etc.

GLAD TIDINGS AND GREAT JOY.—The returns of the elections of Tuesday last, showing a popular majority in favor of the Congressional plan of reconstruction, in the four States of Pennsylvania, Ohio, Indiana and Iowa, of *over one hundred thousand votes*, and a Radical net gain of one member of Congress and one U. S. Senator, constitute, in our humble judgment, the most conclusive argument ever yet advanced in proof of the strength, power and practicability of a Republican form of government. Consider! The popularity, power, patronage and influence of the Chief Magistrate elected by the same men who elected the Congress which he opposed and stigmatized; the Secretary of State, who has been, more than any other, recognized as the founder of the Republican party; the Chairman of the National Central Committee—these and a long list of Senators, Congressmen, Generals and prominent presses, throwing an active and earnest influence into the scale in harmony with a rebel and Copperhead alliance, and yet, President; old and long-honored leader; head of the party organization; popular presses and alliance all submerged and utterly smothered in obedience to the indomitable will and firm purpose of *the people!* The acknowledged frailty of human nature would have seemed to justify the conclusion that, out of so many hundreds of thousands, a yearning for official spoils, hero-worship, attachment to old leaders or a habit of deference to favorite presses would have led off formidable numbers, and that the complexion of Congress would have been so far changed as to have left that body subservient to the will of our renegade President, and, as a necessary consequence to have sacrificed all for which we have so earnestly and terribly striven. We confess that we have frequently yielded to gloomy forebodings in view of this terrible array of influence, power and apostacy. Not until the lightning flashed the tidings of assured victory, were the clouds of doubt and uncertainty dispelled in our mind, nor until thus assured dare we indulge in pleasant anticipations. Whoever may have sneered heretofore, at the intelligence of the masses—whoever may have suspected the people of frickleness of purpose or proneness to be controlled by leaders or demagoguery, must now admit that the loyal masses of the North are independent of leadership and have deliberately and intelligently made up their minds just what they want and will have. This is indeed a proud—the proudest—era in American history. Well might the enthusiastic loyalists of Dutch Flat make "the cannon to the heavens speak" on the reception of the glorious verdict of a free, intelligent, unawed and determined people.

EDITORIAL CHANGE.—H. G. McLean has become connected with the Alemeda county *Gazette*.

MORAL AND SOCIAL TENDENCIES.

It is the general, if not universal wont of California journalists to devote much space to gratulations on the material growth and prosperity of our young State and the physical and intellectual advancement of our people, young and old. These subjects do, unquestionably, present a boundless field for happy disquisition, and in treating of them it were indeed an indolent pen that could know fatigue. There are other points of view, however, from which a study of our condition and prospective progress are less agreeable, and from which journalists generally are loth to indulge in contemplation. It is, in our estimation, an undeniable fact that in social and moral developement the structure which we are erecting lacks the symmetry, strength and general excellence of the "home of our fathers." No matter how permanently settled, no matter how affluent a California community may be, it cannot be denied that we sadly lack in the home-like and neighborly attributes which constituted the chief charm of life in the Eastern States, even in the wildest pioneer districts. The thousand and one little neighborhood graces, the home intercourse between young and old, the cheap but pricelessly touching sympathetic attention in sickness which constitute jeweled links in the chain of our home memories, are not found nor are they apparently missed in California society. These social evils, or rather this absence of social graces, is unpleasant, but far less grievous than the terrible retrogression which we exhibit in morals, as compared with the communities from which most of us emanated. There, a true regard for temperance, industry and honesty, induced the organization of society on a basis which excluded from association with those who practiced those virtues, the drunkard, the idler or the man notoriously adicted to dishonest practices. Here, it is not unusual to meet at religious festivals the habitual drunkard, his breath foul with the nauseous fumes of a recent orgie, or to find the dissolute and vagrant idler the cynosure of so-called "good society." If this social and moral retrogression were limited to the generation which illustrates and practices it, we might endure it without murmuring and look hopefully forward for a brighter future, but, alas! the tares are falling upon soil of hot-bed fruitfulness and the utter smothering and choking out of good seed seems terribly imminent. Practices which would have placed the adult of twenty years ago under social ban in our Eastern homes, are here the familiar and unrestrained habits of children scarce emerged from infancy. An instance in point occurred in our comparatively quiet and orderly community within the past week. A lad nine or ten years of age drew his pocket-knife and stabbed another of fourteen years in the shoulder, missing a vital part only through fortunate accident. These boys were sons of two of our most respectable and prominent citizens. We have heard different and very conflicting accounts of the character and causes of this difficulty and, in the absence of conclusive evidence in the premises, refrain from an expression of opinion as to the measure of culpability. One account represents that the boy who was stabbed was engaged in a "lark" with others, and in the course of the frolic knocked his assailants hat off, which, taking the latter by surprise, was resented as above stated. Another account is to the effect that the stabbed boy and his brother were in the habit of teasing the stabber and that this affair was the culmination of an old feud. Our object in referring to the matter is not for the purpose of accepting or discrediting either of these statements. In the old and well-regulated communities of the Eastern States, the latter, as well as the former, would be considered entirely inadequate provocation for an assault such as we have referred to. Nor do we refer to this matter for the purpose of holding the lad who committed the assault up to popular opprobrium. We consider his act the natural result of the social conditions by which he is surrounded, and neither ourself or our readers would have reasonable cause for surprise if, instead of a common pocket-knife, we should hear of a Colt's revolver being used in a casual fray between school boys. We have heard the opinion expressed that the lad above referred to should be prosecuted and made an example of. This would be about as sensible as to pluck one stalk from a field full of tares, while we politely and encouragingly bowed to the husbandman who was sowing broad-cast fresh seed for a full crop of the same. No, we must set our faces against the vices, habits and examples which sow the seed, rather than wait to destroy the crop which is its natural and inevitable growth.

SUDDEN DEATH.—Hon. James Anderson, who formerly represented Placer county in the State Senate, yesterday fell suddenly from a chair in the *Herald* office, at Auburn, a lifeless corpse. Ten minutes previous to this sad event Mr. Anderson had entered the office and taken his seat to read the exchanges, in fine health and spirits. Mr. Anderson was among the oldest residents of our county, had long been a prominent, honored and respected member of the bar, was an acknowledged and able leader in the ranks of the Democratic party, was the soul of geniality in the social circle, beloved by his intimates and esteemed by all who knew him. It is but a short time since Mr. Anderson made the long and tedious journey from the extreme Southern portion of our State, himself in vigorous health and high spirits, to be near his brother, a confirmed invalid, whose life apparently hung upon a slender thread. By a singular and startling mutation, the will o the great I Am has decreed that, of these two attached and devoted brothers, James the vigorous should be stricken down and that George, the poor invalid, should bedew his untimely grave with tear-tributes from his crushed and bleeding heart. We find our poor pen all too feeble to express our respect for the memory of the deceased or our sympathy for his bereaved brother.

THANKS.—White & Bauer, Newsmen of 413 Washington street, San Francisco, have again laid us under obligations for a supply of interesting Eastern reading matter, embracing Harper's and Frank Leslie's pictorials, Harper's Magazine, Missouri Republican, New York Herald, etc. We regard this as one of the most prompt, reliable and accommodating newsdealing firms on the coast, and can safely and confidently recommend them to the patronage of our readers.

HAVE WE A SQUEERS?

The careful and thoughtful attention of our readers is especially directed to a communication in another column headed "About the Public School," and signed "One of the Board." It is in reality what it purports to be, the production of one of the members of the Board of Trustees of our Dutch Flat School District. Many who read that production will, perhaps, jump at the uncharitable conclusion that "One of the Board" is some what biased in favor of his appointee and that the test applied by visiting *one* "young lady" was not as thoroughly exhaustive and conclusive as it might have been, considering that a score of young masters and young misses could readily have been consulted. We can assure our readers, from our intimate acquaintance with the author, that any such conclusion as the above would do him gross injustice. We sincerely believe that if our correspondent *could be convinced* that Mr. Frink had been guilty of the brutality ascribed to him by implication in our last, he would agree with us that a "licking," administered by "some of the men up town" or "any other man," would be a less effectual and not so proper remedy as his removal from a position where, in spite of the "licking," he might repeat on others and continue, his unteacher-like proceedings. This was the belief and spirit which controlled us and prompted us to pen the article on this subject in our last issue. That article would certainly never have appeared had it been supported only by the testimony of *one* "young lady, one of the scholars." Neither would it have appeared if based solely on the evidence of the scholars who had, or might have supposed they had, been abused. Studiously and persistently refusing to hearken to the complaints of the latter class, we were in receipt of concurrent and apparently undisputed statements from attendants on the school: That Mr. Frink is habitually abstracted while hearing recitations and is often palpably oblivious to the answers given to his questions; that he is habitually querulous and lacks dignity in his intercourse with scholars; that he has frequently seized children by the throat and shaken them violently by way of correction for trivial faults; that he has in one instance struck a scholar so as to black his eye, and in another, repeatedly knocked a scholar off the platform near the teacher's desk with his hand and beaten the same scholar over the head with heavy switches. The testimony on these points was voluntary, derived from a large number of apparently disinterested eye-witnesses, cumulative and uncontradicted. We simply submit that, if true, these facts demonstrate Mr. Frink's unfitness for the position which he holds and that it is the duty of the Trustees to correct the evil.

Whether the above assertions are true or false can be easily ascertained. It is entirely competent for the Trustees to institute a fair and thorough public examination of the matter in the presence of the accused, and if they will do so and the evidence adduced fails to establish, in the minds of fair and unprejudiced men, the truth of the implications contained in our last issue, we will squarely, manfully and publicly retract and apologize for what we have written. Our article was neither prompted by prejudice nor written in passion. As remarked above, we had the concurrent, voluntary and apparently disinterested testimony of many scholars, intelligently given, all tending to the one point and justifying much severer strictures than we made.

We regarded the facts developed, matters of public importance, demanding public notice. We acted on this impression, have confidence that the children on whom we depended intended to speak truly and will repeat their statements to the face of Mr. Frink and in presence of the Trustees. Challenging an open and fair investigation, we leave further action with the Trustees and submit to the public whether our proposition is fair and square or otherwise. A word as to the financial branch of the question, as treated of in our article of last week and in the communication of "One of the Board."

There is certainly no citizen of Dutch Flat who should more heartily than the writer hereof applaud any exertion of the School Trustees tending toward securing long terms and cheap tuition. Said writer is poor—beggarly poor—and, consistently with the old adage, has lots of children to educate. Ever so small a rate-bill would be onerous to him. Yet, poverty-stricken as he is, he would prefer having his little ones in charge of a competent instructor or instructress for eight or even six months of the year, rather than compel them to endure Squeersism for ten. Rather than subject our children to the latter alternative, we would withdraw them at the end of the term for which a free school could be maintained and cast our suffrage for closing it or leaving it to be maintained by those who could afford to pay rate-bills.

Consequently, we reiterate that in a wealthy district like Dutch Flat, with so large a number of children in attendance on the public schools, the sum of ten dollars per month is insignificant and only worthy of secondary consideration. On this point, as well as the other, we confidently submit our argument to the public.

In conclusion, we wish it distinctly understood that we neither have nor desire to have any quarrel with either teacher or Trustees. We have adverted to a subject which we considered a public grievance. We are willing and disposed to argue and investigate, not behind the door, nor with one witness at a time privately examined, but publicly, with accusers and accused face to face.

TO ARRIVE.—Friday and Saturday, respectively the 19th and 20th of the current month and year, are to be made memorable in Dutch Flat annals by the advent of Mart. Taylor and family—or rather, we should have said—the family and Mart. This favorite and amusing troupe will give a series of songs, recitations, etc., all of which will be emanations from the prolific brain of "the head of the family." The rates of admission have been fixed at 50 cents, four bits, half a dollar and 3 Pennsylvania shillin', according to the desirability of seats Go ye! Go ye!! Go!!!

REMOVED.—Dr. W. C. Jones has removed his office from this place to Cisco. We can cordially and confidently commend Dr. Jones to the patronage of our new neighbors. They will find him a careful, attentive and experienced physician, a genial gentleman and most estimable citizen.

PERSONAL.—By a most happy coincidence Messrs. C. A. Tuttle, of Sacramento, George D. Aldrich, of Virginia, and Dr. Palmer, of Gold Run, all "old liners," chanced to meet in our *sanctum* yesterday. We can scarcely conceive of a trio who would have been more welcome on the heels of the glorious election news from the East. Members of the "old guard" throughout the county will require no assurance that it "was good to be here." If the "mosaic" old functionary who inhabits the White House could have been within ear-shot he would have thought that he had certainly reached Gilead and that there were rivers of balm flowing. Without the slightest intention of ridiculing the phraseology of our Methodist friends, we beg the privilege for this one occasion to remark that "we had a special season of rejoicing."

MAMMOTH SEEDLINGS.—Justice Aubury has placed on our table specimens of seedling peaches raised in his garden in this place, of two varieties. One peach of the variety which the Judge has dubbed the "Grant," measured 10½x11 inches in circumference, and one of the "Sherman" variety, which was as nearly as possible a complete sphere, measured a trifle over 10 inches in diameter. These peaches were not only large but juicy and luscious.

ANOTHER RAILROAD OUTRAGE.—E. B. Boust, proprietor of this paper, made a trip to Sacramento on Tuesday. Returning on the late train of Thursday, he found that he had mislaid his ticket and was, as usual "out of funds" to buy another. The conductor listened to, but heeded not, the pretty tale of the suspicious looking cove, and offered him the alternative of assisting the Engineer to "wood" on the trip or go ashore. Boust "*wooded*" extensively.

A. JOHNSON EXULTS OVER THE DEATH OF LINCOLN.—In the published report of President Johnson's speech at Niagara, occurs the following sentence:

"I was placed there—I accepted it; the race was run, the victory was obtained, and I was made Vice-President of the United States. Can't you see, the gradation comes along regularly? And then, by the Constitution of the country, *I was made President.* I AM GLAD OF IT."

Comment is unnecessary.

DUTCH FLAT APPLES.—Capt. M. S. Gardiner has placed upon our table a lot of apples, grown in his orchard in this place, an average lot of bushels of such, which alone are sufficient to establish the first class capabilities of our mountain home for fruit-growing. Seven of these apples weighed exactly seven pounds, the smallest measuring 12½ and the largest 13½ inches in circumference.

CHURCH NOTICE.—We are requested by the Committee appointed to sustain public worship in the Union Church, to notify the congregation that there will be a meeting of those who feel an interest in the subject, at the Church, on Sunday afternoon at 3 o'clock.

WINTER COMING.—During Thursday night and yesterday the sky was overcast with heavy clouds and the occasional pattering of fugitive drops on the dry roofs, admonished of the approach of the "wet season."

TESTIMONIAL.—On the departure of General Drum a testimonial was presented to him, signed by Governor F. F. Low, Mayor H. P. Coon, Judge Hoffman and a large number of others. The Grand Council of the Union League also added another. A large number of officers of the army anh personal friends called on him the evening before his departure, and he was serenaded by the Second Artillery Band. He sailed on the Golden Age yesterday, from San Francisco.

THE TIGHT MAN IN THE TIGHT PLACE.—Andrew Johnson, after hearing of the result in Vermont, Maine, Pensylvania, Ohio, etc.

DIED.

At Gold Run, Tuesday, October 9th, FRANCIS MOODY.

NEW ADVERTISEMENTS TO-DAY.

NOTICE.

NOTICE is hereby given to the qualified electors of Gold Run School District, that an election will be held on the third day of November, 1866, at which will be submitted the question of voting a tax to complete the School House. It will be necessary to raise for this purpose the sum of $500, and the rate of taxation levied will not exceed 35 cents on the one hundred dollars of taxable property in the district. The polls will be open at the Public School House between the hours of two and five o'clock P. M.

DISTRICT COURT SUMMONS.

STATE OF CALIFORNIA, COUNTY OF Placer. District Court of the 14th Judicial District said of State. The People of the State of California, to EMMA M. DEREEMER, Greeting:

YOU are hereby summoned to answer the complaint of Joseph Dereemer in said Court, filed against you, within ten days from the day of service of this writ, exclusive of the day of service, if served on you in this county; but if served on you without said county, and within said District, twenty days; and if served on you without said County and District, then in forty days from such service, exclusive of the day of service. In an action commenced on the 28th day of September, 1866, in said Court, to obtain a judgment and decree of said Court, dissolving the bonds of matrimony heretofore and now existing between plaintiff and you, defendant, Emma M. Dereemer. Plaintiff also prays to be decreed to have the custody and control of Charles A. Dereemer, son of Plaintiff and defendant, and also for costs of suit. All of which you will find more fully set forth in plaintiff's complaint, on file, a certified copy of which is herewith served. And you are hereby notified that if you fail to answer the complaint as directed, plaintiff will take judgment by default against you, and apply to the Court for the relief prayed for and such other relief as may be just.

[L. S.] In witness whereof, I, David W. Spear, Clerk of the Fou tee Judicial District Court aforesaid, do hereunto set my hand and impress the [IRS 50 cts] seal of said Court, at office in Auburn, this 12th day of Sept, 1866.

D. W. SPEAR, *Clerk*.

MORE ABOUT THE SCHOOL.

DUTCH FLAT, Oct. 9, 1866.

EDITOR ENQUIRER:—In your last issue you felt constrained—I doubt not from a sense of duty—to make a statement concerning the government and general management of the public school in this place.

Not having visited the School yourself you spoke from hearsay. Your statement—to my personal knowledge—is not sustained by the two Trustees who have visited the School, and informed themselves as to its general management and progress. Nor so far as I can learn is it sustained by those who have had the means of knowing, and are best qualified to judge. Nor indeed by any body except yourself.

We deny generally and specially your statement. Deny that severity has been used. Claiming to speak for the community of Dutch Flat, with whose interests yours is so near allied, you will certainly have the justice and honor not to misrepresent its citizens to your readers, especially to those too remote for personal inquiry, to the prejudice of the interests of education.

We earnestly request personal inquiry by the patrons of the School and by the public, into its past management and present condition. Hoping that by their frequent visits to the School, they will co-operate to secure its future success. Your statement has, however, accomplished some good by directing the attention of the public to its real character. Which, being a part of the invaluable institution of public learning, should be judged and sustained upon its merits, and not upon a newspaper item, based upon supposed facts which exist,only in imagination.

Being yourself a patron of the School, we hope to see you often in the School-room, where every facility exists for accurate information.

PRINCIPAL.

[The above was received after our article headed "Have we a Squeers?" had been set up. As "Principal" "earnestly requests personal inquiry," and our article suggests the same course, there would seem to be no bar to an open investigation unless it consists in disinclination on the part of the Board of Trustees. As we have been actuated solely by a regard for the public weal and the cause of education in this matter, and as we would be greatly pained to know that anything which may have appeared in our columns should injure or do injustice to a worthy teacher, we sincerely trust that a public investigation may be instituted and the question at issue be settled at once and forever.—ED.]

[COMMUNICATED,

ABOUT THE PUBLIC SCHOOL.

"What sort of a man have you for a teacher in the School now?" was the question asked me by a friend whom I met in the street on Sunday evening last. "I guess you have been reading the ENQUIRER," replied I. "Yes, or rather, I have heard a piece read respecting the manner in which the teacher abuses the children, and I think if he were to treat my child so I should pretty soon see him, and from what I heard some of the men up town say, I guess 'twould not take much to make them go over and give him a licking," "Well, friend W—, you have heard one side of the story and I guess there is another, let's go and hear it." We then visited a young lady, one of the scholars, and to the inquiry as to whether she had ever seen the teacher act in a brutal or over-severe manner to any of the scholars, she replied, "Quite the contrary, in my judgment he is not severe enough. He has only given what I should call a whipping to but one boy once, and he only struck him but four blows, neither of which hurt him, and I think he deserved what he got." And this is the testimony of other scholars also. "That's a different story from what I heard before," said W—, "and I think 'tis the truth." So much for the other side.

Heretofore, in order to keep open the public school, it has been customary to levy an extra school rate of so much per head on each scholar for several months in the year. The present Board, having heard of several children being kept from school in consequence of parents being unwilling or unable to pay the extra rate, resolved to make the attempt to keep *open a free school* for ten months in the year. The salary they offered the young lady whose term had just expired was ten dollars per month more than she ever received for like services before she came to Dutch Flat, and a sum for which there is no difficulty in getting the services of duly qualified teachers, and although *you* may consider the saving in salaries but an *insignificant item*, the Board of Trustees think that being enabled thereby to keep a school open and free ten months in the year for the same money as it used to cost to keep open eight months, is an object of importance to the community at large, and especially to those not blessed with a superabundance of the needful.

Yours, respectfully,

ONE OF THE BOARD.

COMING.—The *Daily Times*, of San Francisco, the new first-class Union journal, so much talked about, is officially announced to appear on November 5th. The proprietors have had a long and earnest tussle for liberty to participate in the overland telegraph news, and it was only through wonderful patience and determined perseverance that they finally succeeded in carrying their point. The *Times* people have, we understand, been waiting for three months on this news. For that period they have been ready to issue their paper, but concluded not to do it without the overland dispatches, and as it was the intesest of the *Alta* and *Bulletin* to control this news themselves, the contest was long and fierce. It is said that the *Times* is to be a first-class commercial newspaper.

MODERNIZED.—An often-used quotation has been modernized, utilized and adapted to the spirit of the age, in this wise: "Sweet are the uses of advertise-ments."

HOSTETTER'S
CELEBRATED
STOMACH BITTERS!
A PURE AND POWERFUL TONIC,
CORRECTIVE AND ALTERATIVE,
—OF—
Wonderful Efficacy in Diseases of the STOMACH, LIVER AND BOWELS.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fever, Cramps, Spasms, and all Complaints of either Sex, whether arising from Bodily Weakness, whether inherent in the system, or produced by special causes.

NOTHING THAT IS NOT WHOLESOME. A genial and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no fierce excitant; but it is a combination of the extracts of balsamic herbs and plants, with the mildest and purest of all diffusive stimulants.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be appreciated. In case of Constitutional Weakness, Premature Decay and Debility and Decrepitude arising from old age, it exercises an electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed it operates to reinforce and re-establish them.

The weak Stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of DYSPEPSIA, and in less confirmed forms of INDIGESTION. Acting as a gentle and painless aparient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive secretive organs.

Persons of feeble habits, liable to Nervous Attacks, Lowness of Spirits and Fits of Langour, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive and from both sexes.

The agony of BILIOUS COLIC is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

Last, though not least, it is the ONLY SAFE STIMULANT, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and somachics of the day.

No family medicine has been so universally, and, it may be truly added, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.

CALIFORNIANS should test the merits of DR. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. Dec9-3m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

AT LEAST two-thirds of the Diseases with which the human family are afflicted, are brought on by the want of attention to the condition of the Blood. Whenever the blood becomes impure, no matter from what cause, the effects of such impurity are immediately felt, either in one way or another; and unless measures are at once taken to remove such impurities, the whole system becomes affected, and a long fit of sickness and sometimes death is the result. Dr. Samuel Adams, a well-known Chemist of San Francisco, has discovered certain herbs and roots, mostly of California growth, which he has combined with Sarsaparilla and Iodide of Potas, and succeeded in producing a Medicine that, while it is entirely harmless in every particular, will in short time completely eradicate from the Blood all impurities of whatever nature, and will restore the patient to perfect ROBUST HEALTH. The preparation is called "ADAMS' BLOOD PURIFIER," and is for sale at wholesale at the United States Drug Store, corner of Bush and Powell streets, San Francisco, and by Dr. D. W. Strong, Dutch Flat, 40

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is at the same place, corner of Kearny and Jackson streets, San Francisco, where he has been established for many years, for the cure of special complaints. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills ate not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHŒA PILLS cure where all others fail. Which for Burns, Scalds, Childblains, Cuts and all abrasions of the skin MAGGILL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others, to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

KNOW THY DESTINY!—MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y.—Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Pyschomotrope, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send, when desired, a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing 50 cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. RHEUMATISM.

Throughout this Coast a great deal of suffering is experienced from Rheumatism. Weeks and even months of protracted and aggravated misery is endured by the victims of medical insufficiency and ignorance, which could be cured just as speedily as was Mr. SPARROW, whose testimony is given below, and is only the echo of hundreds of other cases. Dr. Bourne cures without medicines, which accounts for his extraordinary success.—No. 10 Masonic Temple, Post street entrance.

SAN FRANCISCO, September 6, 1861.

DR. BOURNE:—Last winter I was nearly dead, by an attack of inflammatory rheumatism. I suffered the most excruciating pains for about five weeks, without any hope of relief, when a friend hearing of my illness, called to see me, and assured me that if I would stop drugging and dosing, and go to you, that you would have me walking about the streets in three days. Sure enough, although I was utterly helpless, and conveyed to your house in a carriage, lifted into the bath, yet, on coming out of it, I largely assisted myself, doing much towards dressing, and without assistance, walked from the bath to the carriage. On the fourth day, I discharged my carriage and walked, with a friend's aid, the entire distance to your house, (nearly a mile) and home again, and so on until cured. I felt myself a well man. And now I am happy to do, on this little service of publicly certifying to the simple truth, leaving it to do its work among my friends and quaintances as may chance to see this.

Your friend,
JOSEPH SPARROW.

CONSUMPTION.

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last he made me a visit, "the very picture of health." Time, which tries all things, has sufficiently tested this case, and proves all things, has sufficiently tested this case, as shown, that neither relapse nor collapse have follow; the cure is perfect; and can be cited among the cures of similar cases the result of my improved mode of treating diseases without medicine.

G. M. BOURNE.
Water Cure Physician,
No. 10 Masonic Temple, Post street

SACRAMENTO, April 30, 1865.

DR. G. M. BOURNE—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I had been lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August, 1864, when disease developed itself with a severe cough. I then took medicine, getting worse with chills, fevere, loss of strength, and was pronounced consumptive. This set me to thinking, and finally I determined to leave my business and go to the Sandwich Islands, having been informed there I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was wholly unnecessary, as I could be speedily cured at his establishment. I placed myself under his treatment, and in one week was so improved I thought I could risk returning home and do my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse, and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the Water Cure. I went to San Francisco—full of my friends expecting me to return; in fact, I thought my return doubtful. On arriving at Dr. Bourne's establishment (February 14, 1865,) I was not able to get into the bath without assistance, but in a few days I began to recover myself again. I remained with him only six weeks, when I felt "a wiser and better man," without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid fair to be stouter than ever before. Persons visiting the Doctor's establishment find it just what it should be, both in the Ladies' and Gentlemans' Departments, and I cannot say too much in praise of the Doctor's kind attentions to his patients.

This letter I write for the benefit of all the afflicted, to be used as the Doctor decides, and should it be the means of directing any to his care and treatment who (as they assuredly will) find relief, I will be paid for my trouble. JAMES CAMPBELL,
Engineer Central Pacific Railroad.

SAN FRANCISCO, August 22, 1865.

Advised by the undersigned, Mr. James Campbell, of the Central Pacific Railroad, (who was then in a most deplorable state of ill health,) placed himself under the care of Dr. Bourne, the Water Cure Physician. Some six months afterward he visited the city, when I accidentally met him at Dr. Bourne's establishment, and am happy to say restored to the enjoyment of good health, and in fine spirits. JOHN SULLIVAN.

☞ Dr. Bourne treats all diseases of the throat, chest and lungs—which includes diptheria, brochitis, incipient consumption, pleurisy, croup, etc.—with greatest success. Great relief is afforded in advanced stages of consumption. Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., are also cured quickly, pleasantly and economically. No medicine whatever.

Confirmation Strong of an Interesting Letter.

SACRAMENTO, November 23, 1865.

DEAR DOCTOR:—I received your letter a few days since asking for my photograph, which I will attend to as soon as convenient. At present I am very busy, on account of the storm and weather, being out at all times, both night and day, and am enjoying very good health, apprehending no danger if properly careful, as every one should be. I have read my letter in the "Call" and other papers, and have been asked several times concerning it, and whether it is correct, and I say I can vouch for its contents, and more if required, and so can a great many others who know me at the time.

I remain your friend,
JAMES CAMPBELL.

To DR. BOURNE, San Francisco.

Dr. Bourne takes the liberty to publish the above as many persons had prophesied his relapse into his former condition, on returning to his duties, of the writer of "An Interesting Letter," whose statements concerning the cure of a well defined case of consumption have recently attracted so much attention to the Water Cure, as improved upon and practiced by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered that Dr. Bourne uses no medicines whatever, and that his patients almost universally are those who failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleasant and agreeable manner. No. 10, Masonic Temple, Post street entrance. jy14 3m

MILK FOR THE SOLDIERS.—The ladies and gentlemen of a rural town lately held a meeting to contribute necessaries for the relief of disabled soldiers. A young lawyer present suggested that milk would be an excellent gift, and jumping upon a chair, he asked: "How many ladies will give milk for the brave soldiers?" An elderly lady responded, that "for one she could not—she had not given milk for ten years." The reply so utterly confounded the young lawyer that he was unable to prosecute his enquiry, and it has never been satisfactorily known how many would have promised "to give milk for the brave soldiers."

BRIG. GEN. GEO. S EVANS.—In the list of nominations of Brevet Brigadier Generals U. S. V., confirmed by the United States Senate, published in the Army and Navy Gazette of September 8th, is the name of George S. Evans, Adjutant General of the State of California, "for meritorious service in the field." There may be others equally fortunate thus promoted, but there are surely none more worthy this distinguished recognition of patriotic services in the field of glory or the halls of legislation during the late rebellion.

MURDERERS KILLED.—A private letter from Hardyvill, Arizona, September 17th, states that several Piute Indians had recently been killed near that place, having in their possession the coat and blankets of Moses Little, the Superintendent of Strong's mines at Rock Springs, who was killed by Indians some months ago. It is thought that the Indians recently shot were his murderers.

ARIZONA ELECTION.—Returns from Arizona indicate the election of Bashford, formerly Governor of Wisconsin, as Delegate to Congress, by about 300 majority over Poston. Both candidates claim to be Union men, and the contest was for and against the administration of Governer McCormick—Bashford supporting it.

The mayor of a town in the west of England, questioning the boys at the ragged schools, asked them what were the pomps and vanitiies of this wicked world. A little boy said: "The mayor and corporation going to church, sir."

HOMICIDE.—Peter Riley was shot and killed on Big Creek, about fourteen miles from Austin, September 28th, by a man named Wiggins. Their farms joined and there was an old feud.

DYING OFF.—The Tehama *Observer* of last week says that on South Fork Cottonwood the rabbits are dying by thousands, to the delight of farmers, who complain that the rabbits are very destructive to grain and vegetables.

When the husband of Queen Emma was in this country, years ago, he was turned out of the cars on account of his color.

DR. CHARLES H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
Northeast Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are many more; but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system.—Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form.—These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Foreboding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females.

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor.

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to affect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter, FREE.

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer;—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped down and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you and DR. DEMAREST* for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc.,

THE GREAT REBELLION!

Much anxiety has been manifested by the Reading Public during the past few months to see the completion of this History, which was commenced at the breaking out of the Rebellion, by the

HONORABLE J. T. HEADLY,

America's most popular author. The Publishers now beg leave to announce to the public, that the Work is completed and ready for delivery; finished in the finest style of the book-making art; containing 1208 closely printed royal octavo pages on fine paper—embellished with seventy-four splendid STEEL PLATE engravings of all the leading Generals and Public Men NORTH and SOUTH, and Spirited Scenes of Naval and Land Engagements which bring the reader face to face with the very conflict In the preparation of this work the author has traced the footsteps of the Rebellion, not only in the field, but in the councils of political and diplomatic bodies, following closely each day's proceedings NORTH and SOUTH, giving every

Order, Proclamation, Battle and Event,

In the order in which they occur, with an impartial review of everything of interest making it a Complete History of the Rebellion.

Mr. Headly's "Sacred Mountains;" "Washington and his Generals;" "Napoleon and his Marshals" which have given him such fame as a writer, are but a prelude to the copious and fascinating descriptions portrayed in this his greatest work—which instead of grating on the reader's ear with the cries of death, leads him gracefully to the sublime achievements of heroism until it reaches a plane of contemplation that is imposing.

This work is for sale by subscription. AGENTS WANTED TO CANVASS FOR IT IN EVERY COUNTY AND TOWN ON THE PACIFIC COAST.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALE and IRREGULARITIES IN FEMALES are the great destroyers of health They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles in dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT,

Cures are always Guaranteed.

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex; cure always warranted, NO PAY REQUIRED, at the

SEMINAL WEAKNESS OR SPERMATORRHŒA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing darkness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loath-some grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment He adds to his misery and disorder until hope leaves him. There is no resene except in proper and skillful treatment. Consult them, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sad graves with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to inform those, and by the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. FLORENCE SEWING MACHINES.

Copy of the report of the Committee of Awards at the Fair of the
AMERICAN INSTITUTE
NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,
HIGHEST HREMIUM! GOLD MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two doubld thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co.. or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted owners and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Stictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my heart fully restor ed, that in common gratitude, I believe I should make you some some written acknowledgemen for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have a doubt as to whom you may employ, ask Dr. Doherty for his address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours, L——H——.
San Francisco, June 16, 1864.
subscribed and sworn to before me, this 1st day of June, A. D. 1864.
[L. S.] A. S. GOULD, Notary Public.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1866, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his treatment was so reasonable, I determind to try it, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself
JAMES JOHNSTON.

Subscribed and sworn to before me, this 12th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, varinitie, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. he doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call on Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's rooms are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.
